"In making the assessment of Decatur I stopped at nearly all the houses in the city. What struck me most forcibly was the per centage the women have over the men in weight. I would knock at a door. She would call Jake or John, or whatever her husband's name was, when there would appear on the scene a little scrawny one hundred to one hundred and twenty pound fellow, about half as hig as hig wife, yet called the head of the family but I generally thought him more suita-ble for the tail of it "
